

The Nebraska Game and Parks Commission recovered the carcass of an 80lb male mountain lion that had been killed by a vehicle near Chadron Nebraska on July 10th. The mountain lion measured 64 inches from nose to tail. This is the seventh mountain lion confirmation in Nebraska in 2007. For more information on mountain lions in Nebraska, go to the Commission web site at www.OutdoorNebraska.org, click on Wildlife, then Wildlife Species.
